agri • check allows your bank to offer a completely new type of account, designed specifically with the needs of Ag customers in mind.

agri • check provides a way to separate yourself from the competition in a competitive and profitable market segment.

MIRRORIMAGE SUITE OF MODULES:

Jaguar Software is committed to developing and delivering check-imaging systems for financial institutions and businesses of all sizes.

Our ability to provide the very best product is accomplished by listening, understanding, and designing solutions that fit the needs of our customers.

Cost-effective digital check imaging can revolutionize your financial institution or company by reducing overhead, improving customer satisfaction, and enhancing workforce productivity. The recent passing of the "Check Clearing for the 21st Century Act" (Check 21) allows companies and financial institutions to further leverage the advantages of image processing.

Our MirrorImage Check Imaging System is a sophisticated, modular and user-friendly software solution consisting of the following modules:

- Image Capture/Branch Capture
- Image Repair/Read & Key
- Image POD
- Image Research
- Image Statements
- Check 21
- Image Archive/Distribution
- Document Imaging
- COLD
- Agri Check
